WE ARE AT WEEK 11!

Keep up the GREAT work everyone!!!

As we are beginning the downward slope of our Regional season, be sure to note that when a truck is out for the last time, we are going to request that everyone follow these procedures:

- ◆ Each truck will receive plastic tote bins that will be LABELED with specific items.
- ◆ The store dressers should be completely emptied and the items packed up in the assigned bins.
*These will then be pulled off the truck and immediately re-stocked on the other trucks for the rest of the season.
- ◆ There will be a few unlabeled tote bins to use if needed. Please be sure to label these with the items that you put in them.
- ◆ All bins should be packed up at the back of the truck so that they can easily be taken off.

Thank you in advance for getting this completed! We want to send out ALL of our merch to the remaining shows so that we can sell sell sell it!!! :-)

TAB & REG CASES

As a reminder, the Tabulation and Registration cases do not come off of the trucks, so it is IMPERATIVE that you have your staff go through and clean these cases out and organize.

These will be going directly to Nationals, and everyone working your championships would like to have neat and organized work spaces.

Remind staff to use the QR code for supply restock so that we know exactly what each bin needs to get through the many championships.
